## “Rock Solid” Safety Awards

For the past nine years, the Illinois Association of Aggregate Producers (IAAP) Safety Committee has encouraged companies to adopt systems and practices that prevent injuries or illnesses by recognizing members with its “Rock Solid” safety award program. For calendar year 2010, the IAAP Safety Committee granted 138 awards to thirty-seven IAAP member companies at its Annual Convention on May 3, 2011 in Springfield, Illinois.

Presenting these awards were **Shawn McKinney, IAAP Outreach Manager; Steve Richetta, MSHA North Central District Manager; and Kevin LeGrand, MSHA Peru Field Office Supervisor.** “Illinois’ aggregate mines lead the nation in safety.” according to Steve Richetta who went on to say, “This award’s criteria are a blueprint for achieving accident free years.”

In developing this program, Safety Committee members identified a comprehensive list of activities required for a successful safety and health program and then assigned 1, 2 or 5 points for undertaking and documenting each of these critical activities. Using this point system, the Safety Committee created the Rock Solid Bronze (14 points), Rock Solid Silver (22 points) and Rock Solid Gold (30 points) award levels plus a special award category for exceptional performance. This highest award level, Rock Solid Excellence in Safety, is granted to companies that achieve Gold Status plus: (a) experience zero MSHA reportable or OSHA recordable injuries; (b) experience zero final MSHA S&S Citations (or OSHA equivalent); and (c) attain a total of 15 points from the five point categories. Of the 138 operations receiving awards at the convention, sixty-three achieved Rock Solid Excellence in Safety status.

### BRONZE AWARD WINNERS

#### Company

Coots Materials Company Monmouth Quarry

Ozinga Materials, Inc.

#### Operation

Portable Crushing Plant #2

Henry Quarry

### **Education Foundation Scholarship**

The IAAP Education Foundation Scholarship program strengthens the Illinois aggregates industry by promoting the education of worthy students seeking a career with producers of crushed stone, sand and gravel. Each of the following students were chosen to receive \$2,000 scholarships:

**Emma Bayer**—Wheaton College—*Geology & Political Science*

**Michael Davis**—Wheaton College—*Geology*

**Alek Miller**—Missouri University of Science and Technology—*Geology & Geophysics*

**Benjamin York**—McHenry County College—*Geology*
